

# System 600EF

## *The Workhorse of Bill Acceptors just got BETTER!!!*

Standard is pleased to present the next generation in our System 600 Bill Validator - the **NEW System 600EF Bill Validator**. This time-proven design has been updated to handle bill acceptance functions with improvements in speed, performance, reliability and longevity.

### The **NEW** System 600EF features:

- ◆ Simple programming steps allow you to customize your machine's functions.
- ◆ Easy, Automatic Calibration - accomplished in seconds
- ◆ Expanded Function CPU board - with powerful microprocessor 50 times faster than the original System 600-FST
- ◆ Expanded On-Board Memory - increases number of recognized bill patterns (up to 64 patterns)
- ◆ "Flash Stick" Memory Device for quick and easy software updates. The Flash "port" is accessible by removing the back panel, for added convenience
- ◆ RS232 Interface for serial communications
- ◆ Automatic Reset of tampered (error) conditions, without the need for any personal involvement
- ◆ Displays the last 20 bills accepted
- ◆ Faster Bill Acceptance Cycle - bill recognition time cut by almost 2 seconds
- ◆ Improved Track Cell Sensor Board - improves reliability and longevity.
- ◆ New customer selectable one, two, or four-way bill acceptance (Program Upgrade available through "Flash Stick" - when available)

*The System 600EF Bill Validator is the most technically advanced bill acceptor in the industry. It offers a wide array of user-friendly features that provide our customers with excellent security features, bill acceptance and audit functions. It is designed to help our customers manage their self-service businesses more effectively and efficiently.*
