

MCM100-TIK

3130 N. Mitthoffler Road Indianapolis, IN 46235
800-968-6955 Phone: 317-899-6966 Fax: 317-899-6977

Top Load Counter

Standard's NEW Modular Series MINI machines were designed for "simple function" ticket dispensing. The MINI Series features a small cabinet that can be used in countertop, wall-mounted or machine-mounted applications. The unique cabinet design allows easy access to the ticket dispenser and bill acceptor for maintenance or replenishment operations. The ticket dispenser holds 3,000 fanfold tickets. The optional features are limited due to the small cabinet. This is an ideal changer for small attended amusement or dart & billiards operations where security is a minor issue.

The MCM100-TIK Changers feature:

- Front Load configurations for Bill Acceptance and Ticket Dispense
- (1) Pyramid™ Bill Acceptor with 500 bill stacker box (other brands available)
- (1) Entropy™ 1.156" Fanfold Ticket Dispenser (3,000 fanfold tickets capacity)
- Steel cabinet with solid welded seams, top lid & front face open for easy access
- T-handle Slam Lock with Ace™ plug
- High gloss powder-coated enamel paint finish with applied Lexan™ graphic
- Two Year Limited Warranty & ETL Certified in accordance with UL & CSA standards.
